MSDS PRODUCT INFORMATION

Date: 10/07/2005
To: MSDS Requester
From: 3E Company
Subject: The MSDS you have requested

☐ MSDS NOT REQUIRED

In response to your request for a Material Safety Data Sheet, according to the OSHA Hazard Communication Standard (Right-to-Know), the following item is an article. Articles are defined in 29 CFR 1910.1200(c). Products such as Drugs, cosmetics, food, or alcoholic beverages, wood or wood products, and tobacco or tobacco products, as defined in 29 CFR 1910.1200(b)(6), are exempt from the Hazard Communication Standard. Items that are considered articles, as defined in 29 CFR 1910.1200(c), are also exempt from this Standard. Therefore, the manufacturer is not required to provide an MSDS for this product.

☒ MSDS DISCONTINUED PRODUCT

In response to your request for a Material Safety Data Sheet, the manufacturer has discontinued the product listed below. The MSDS Attached is the most current version, or an MSDS is no longer available.

☐ MSDS BEST COPY AVAILABLE

The MSDS attached is the best copy available from the manufacturer.

☐ MANUFACTURER NO LONGER IN BUSINESS

In response to your request for a Material Safety Data Sheet, a current MSDS could not be obtained for this product. It has been determined that the manufacturer listed below is no longer in business. A current address and phone number could not be located.

Manufacturer: Preserva-Products Inc.

Product Name: Preserva-Wood, Classic (All Colors) (DISCONTINUED)

MATERIAL SAFETY DATA SHEET

H	-	1
F	-	2
R	-	0
PP	-	B

FOR COATINGS, RESINS AND RELATED MATERIALS

Form essentially similar to OSHA form 20 or 29 CFR 1910.1200

7-1-98

SECTION I - PRODUCT IDENTIFICATION

Manufacturer's Name:
PRESERVA-PRODUCTS INC.

Address:
12860 Earhart Ave. Suite 102
Auburn, CA 95602

Chemical Name and Synonyms:
N.A.

Chemical Family:
N A. PENETRATING WOOD FINISH

Emergency Telephone Number:
(530)887-0177 OR (800) 521 6110
Telephone Number for Information:
(530)887-0177

Trade Name:
PRESERVA-WOOD®
(VOC compliant)

Formula:
PROPRIETARY

SECTION II - HAZARDOUS INGREDIENTS

<u>HAZARDOUS INGREDIENTS/CAS NUMBER</u>	<u>% OF WEIGHT</u>	<u>PEL</u>	<u>TLV</u>
Aliphatic Petroleum Distillates (8008-20-6)	23%	N A.	N.A.
Solvent Naphtha (Petroleum) Light Aromatic (64742-95-6)	14%	100ppm	N.A.

SECTION III - PHYSICAL DATA

V.O.C.: Less than 349 grams/liter (2.91 lbs./gallon)

Boiling Range: 306-554 degrees F

Specific Gravity: .92 @ 60 degrees F

Vapor Density: heavier than air
Weight/Gallon: 7.62 lbs./gallon

Percent Volatile by Weight: 38.2%

Solubility in Water: negligible

Odor: negligible, wet-oil smell

Appearance & Color: amber unless
pigment added

Percent Solids by Weight: 61 8%

- continued on next page -

SECTION IV - FIRE AND EXPLOSION HAZARD DATA

Flash Point: 124 degrees F (Seta Flash closed cup - ASTM D3278)

Flammability Classification: COMBUSTIBLE, D.O.T. Not restricted, U.N. 1263

Extinguishing Media: REGULAR FOAM or CARBON DIOXIDE or DRY CHEMICAL

Special Fire Fighting Procedures: SELF-CONTAINED BREATHING APPARATUS WITH A FULL FACEPLATE OPERATED IN PRESSURE-DEMAND OR OTHER POSITIVE PRESSURE MODE.

Hazardous Decomposition Products: COMBUSTION MAY CAUSE TOXIC MATERIALS TO BE FORMED, SUCH AS CARBON MONOXIDE AND CARBON DIOXIDE.

Spontaneous Combustion: TO AVOID THE POSSIBILITY OF SPONTANEOUS COMBUSTION, OIL-SOAKED CLOTH, PAPER OR OTHER APPLICATION MATERIAL SHOULD BE WASHED IN WATER AND DRIED OUTDOORS, AWAY FROM SUN, HEAT, FLAME OR COMBUSTIBLES, UNTIL THEY ARE AIR-DRIED AND THEN DISPOSED OF PROPERLY.

NOTE: VAPORS ARE HEAVIER THAN AIR AND MAY TRAVEL ALONG THE GROUND OR BE MOVED BY VENTILATION AND IGNITED BY OPEN FLAMES OR IGNITION SOURCES DISTANT TO MATERIAL HANDLING POINT.
NEVER USE WELDING OR CUTTING TORCH NEAR OR ON CONTAINER (EVEN EMPTY), BECAUSE PRODUCT (EVEN RESIDUE) CAN IGNITE EXPLOSIVELY.

SECTION V - HEALTH AND SAFETY DATA

Threshold Limit Value: NOT ESTABLISHED FOR THIS PRODUCT

Effects of Overexposure: NONE OBSERVED FROM INHALATION OR SKIN CONTACT, HOWEVER THE FOLLOWING EFFECTS ARE POSSIBLE:

For Product: EYES - may cause irritation, redness, tearing, blurred vision
SKIN - prolonged or repeated contact could cause moderate irritation and dermatitis
BREATHING - excessive inhalation of vapors or mist could cause nasal irritation, dizziness, weakness, fatigue, nausea, headache and possible unconsciousness
SWALLOWING - can cause gastrointestinal irritation, nausea, vomiting, diarrhea, and pneumonitis (which can be fatal)

First Aid: IF IN EYES: Flush with large amounts of water, lifting upper and lower lids occasionally.
IF ON SKIN: Wipe with paint thinner, then wash thoroughly with soap and water. Remove contaminated clothing and launder before re-use.

IF BREATHED: If affected, remove individual to fresh air.
If breathing is difficult, administer oxygen. If
breathing has stopped, give artificial respiration.
Keep person warm, quiet, and seek medical help.
IF SWALLOWED: Immediately contact physician. DO NOT induce
vomiting if physician can be contacted. Immediately
drink 1 or 2 glasses of milk or warm water.
Keep out of reach of children!

SECTION VI - REACTIVITY DATA

Stability: STABLE Hazardous Polymerization: WILL NOT OCCUR
Conditions to Avoid: N.A. Incompatibility: AVOID STRONG OXIDIZING
AGENTS(e.g. Nitric Acid, permanganates, etc.)
Hazardous Decomposition Products: USUAL PRODUCTS OF COMBUSTION - CO, CO₂

SECTION VII - SPILL OR LEAK PROCEDURES

SMALL SPILL: Absorb liquid on paper, vermiculite, floor absorbent or other
absorbent material and transfer to containers for proper disposal.
LARGE SPILL: Eliminate ignition sources (flares, flames including pilot
lights, electrical sparks, etc.). Persons accomplishing clean-up
should wear appropriate protective clothing. Stop spill at source;
dike area to prevent spreading; pump liquid into container for
filtering and salvage. Prevent run-off into sewers, streams or other
bodies of water. Clean-up residue as in "small spill" above.

NOTE: MATERIAL COLLECTED ON ABSORBENT MATERIAL SUCH AS RAGS MAY CAUSE
SPONTANEOUS COMBUSTION. AVOID THIS BY SUBMERGING RAGS IN WATER OR
SPREADING OUTSIDE TO AIR-DRY. DISPOSAL OF RESIDUE AND LIQUID SOAKED
MATERIALS SHOULD BE IN ACCORDANCE WITH ALL LOCAL, STATE AND FEDERAL
REGULATIONS.

SECTION VIII - PROTECTIVE EQUIPMENT TO BE USED

RESPIRATORY PROTECTION: If TLV or product or any ingredient is to be exceeded, a NIOSH/MSHA jointly approved self-contained breathing apparatus with a full faceplate, operated in a pressure-demand mode or other positive mode is recommended. However, OSHA regulations also allow other less cumbersome respirators under specified conditions (see your local safety equipment supplier).

VENTILATION: Provide sufficient mechanical (general) and/or local exhaust ventilation to maintain exposure below TLV(s).

PROTECTIVE GLOVE: Neoprene rubber or PVC coated gloves or other similar glove which will hold out water and petroleum distillates.

EYE PROTECTION: Chemical splash goggles or side-shielded spectacles in accordance with OSHA regulations are advised.

OTHER PROTECTIVE EQUIPMENT: Eye wash stations and safety showers should be available. Impervious clothing should be available.

SECTION IX - SPECIAL PRECAUTIONS

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING: Store away from high temperatures and open flames. Do not breathe mist. Avoid spontaneous combustion of contaminated rags and other ignitable organic accumulations by immediate immersion in water. Emptied containers may retain residues of product. Do not cut, puncture, weld or incinerate on or near the container.

THE INFORMATION ACCUMULATED HEREIN IS BELIEVED TO BE ACCURATE, BUT IS NOT WARRANTED TO BE, WHETHER ORIGINATING WITH PRESERVA-PRODUCTS INC. OR NOT. RECIPIENTS ARE ADVISED TO CONFIRM IN ADVANCE OF NEED THAT THE APPLICABLE INFORMATION IS CURRENT AND SUITABLE TO THEIR CIRCUMSTANCES.
